

## Solution Architect

---

- **12 month contract, Full-Time hours**
- **Experience working with Azure, SparX EA, .NET and TOGAF**
- **'Free' leave over the festive season & great employee benefits**

DPM is looking for an experienced Solution Architect to join our Software Development team for a 12-month period. Working with a large, agile team and reporting to the Manager Software Development, the Solution Architect will work on a strategic project to transform proprietary legacy software into a future-state solution. If you are a proactive and motivated solution designer, with experience in a financial services environment, this may be the perfect opportunity for you.

### Skills we are looking for:

- Strong experience with Azure cloud services (SaaS, PaaS and IaaS)
- Experience with SparX EA or other architecture tools
- Experience in architecture frameworks (TOGAF) and methods (ADM)
- Experience in architecture notation (UML, BPMN, ArchiMate)
- Background in Software Development (.Net)

**Who are we? DPM are a leading financial services firm established in Melbourne for more than 60 years. We provide our people with:**

- ✓ Free annual leave over the EOY period
- ✓ A great social calendar of internal events
- ✓ Development opportunities to grow your career
- ✓ Recognition and celebration of growth and development

### Want to know more? A normal day in this role would include:

- Designing and documenting shared digital services in the cloud (Azure) using Micro Services patterns
- Designing and documenting architecture building blocks (ABBs), solution building blocks (SBBs) Design and documenting security architecture artefacts.
- Designing and documenting architecture road map and migration strategies
- Documenting and communicating the impact of key architecture decisions and associated risks
- Guiding and influencing software development approaches to deliver the solution

### But there is a catch. To be in the running for this great role, you should have:

- Experience working in an Agile team on transformation projects
- Excellent communication, collaboration and stakeholder engagement skills
- 5+ years solution architecture experience
- 10+ years industry experience

### Interested?

To apply for this opportunity, please submit an application through our Seek portal:
